D. Wayne Hedberg
Division of Oil, Gas, and Mining
1594 West North Temple, Suite 1210
Salt Lake City, UT 84114

Dear Mr. Hedberg:

Per our meeting on January 17, 2003, Staker & Parson Companies is asking for a time extension on the January 27th information due date given to us by the Division of Oil, Gas, and Mining. We ask that April 15th, 2003 be the extended date.

Staker & Parson Companies has been in contact with Salt Lake City Corporation (mainly Marilynn Lewis, and Doug Wheelwright) many times to ask for information regarding the Beck Street Aggregate Mining facilities that we have acquired. The requests started in the second week of November. Salt Lake City Corporation has not been able to give any information dealing with reclamation plans or reclamation bonds up to this date. We have been told that they are working on researching this information.

Staker & Parson Companies has provided the Division of Oil, Gas, and Mining a reclamation plan from 1987 for the Staker Pit for your review, so we hope that a lack of reclamation information from our acquired sites does not show that we are not working on your requests, its quite the contrary, we are trying to get the information to you, but have had some difficulty in obtaining it.

Upon meeting with you on January 17th, we have decided to follow the Staker Pit Plan and incorporate those ideas to the Foss Lewis and Monroc Sites. As of this date we are meeting with Engineering Consulting Firms to help us accomplish reclamation plan ideas for those Beck Street sites.

We appreciate your patience and guidance given to Staker & Parson Companies in regards to this matter.

Sincerely,

Staker & Parson Companies

Michael Dalley
